

NOUVATAN

PREPARATION:

- > Shower & **exfoliate your body the day before**. Do not exfoliate on the day of your tan.
- > Avoid heavy moisturising shower gel.
- > Do not apply moisturiser, deodorant, oil based products or perfume.
- > Wax / shave 24 hours before tan session.
- > Wear loose dark clothing & open shoes e.g flipflops.
- > Avoid silks, wool & leather garments as the tan will not wash off these materials.

DURING:

- > Wear suitable swimwear or underwear to create desired result.
- > If using underwear, ensure it is black as the tan does not wash out of elastic / lace.
- > Your therapist will apply barrier cream to your hands, feet & other dry areas.
- > Your session will last around 15-25 minutes.
- > Do not touch the skin whilst developing to avoid tanned fingers!

AFTERCARE:

- > Shower between 6-8 hours after treatment.
- > Pat dry with a towel - do not rub.
- > Avoid water on the skin whilst tan is developing.
- > Avoid exercise or perspiration during development.
- > Use a non oiled based moisturiser to keep your skin nourished and tan looking fresh.
- > Use our gradual tans to prolong your NOUVATAN spray tan!
